Off Center load cell **PSTA2**

available with certification • EAC • ATEX • OIML

General information

PWS24920260528

The PSTA2 off center load cell is particularly suitable for the construction of industrial and bench electronic scales, piece counters and packaging machines. The PSTA2 single point cell is able to measure correctly even with off-center loads and guarantees high precision, maximum reliability and long life. Pavone Systems also supplies the ATEX version on request. The PSTA2 off center load cell has a 4 meter long shielded cable with 4 conductors.
