## General information

PWS16520251216

The off center load cell SPI, built in stainless steel, is robust and precise and is equipped with a 6-meter shielded 6-conductor cable for the electrical connection. The single point cell SPI is ideal for large single-cell platforms and guarantees accuracy in any position the object is loaded. The SPI cell is used in the food packaging sector and for the construction of single-cell scales.
