General information

PWS5020251216

The PSPRX pin load cell is made of stainless steel and offers maximum resistance to impacts and overloads. The operation of the PSPRX load cell is double-ended shear beam. The PSPRX cell is insensitive to side loads and it has been designed for shooting, weighing or anti-overhead systems for overhead cranes. The PSPRX pin load cell can be customized and it has a "high temperature" version.
