PWS1520260417

The PTA shear beam load cell, built in nickel-plated steel, has excellent precision, linearity and creep characteristics and has been designed for weighing tanks, hoppers, belts, platforms, single-cell systems, suspended loads and automatic packaging machines. The PTA cell is resistant to lateral loads exceeding 50% of the Rated Capacity and is supplied with a 4-conductor shielded cable 4 meters long (0.5 - 2 t) or 6 meters (3 - 5 t). **The PTA bidirectional load cell is suitable for tension and compression industrial applications.**
