

General information

PWS1720260522

The SBR shear beam load cell, made of stainless steel and hermetically sealed, has been designed for the fiscal weighing of low-profile hoppers, tanks, belts and platforms, is 100% resistant to side loads and has a 6-conductor shielded cable 5 meters long. Furthermore, the MH MOUNTING KIT mounting accessory is available for this load cell and allows an easy assembly and installation. Also available in nickel-plated steel (SBRA model).

Suggested related products

A highly performing weighing system must be accurate, perfectly calibrated and well maintained. In order to improve the load cell performance and to optimize its functioning, you may need the following products:
