

## General information

PWS34920260210

The Model 620 is a stainless steel S-type load cell. Its welded sealing combined with high accuracy, make this load cell ideally suited for a wide range of applications of process weighing and force measurements. Approvals include OIML C3 (3000d); NTEP 3000d single and NTEP 5000d multiple. Also available are versions approved for hazardous areas—ATEX II 1 GD Ex ia T6 for Europe and FM I, II, III Division 1 for the USA. The six-wire cable includes two sense wires that compensate for changes in lead resistance due to temperature changes and cable extension. The Model 620 offers a choice of bolt threads in metric or unified systems
