Weighing Module **VC3500**

available with certification • EAC • ATEX

General information

PWS19820260210

The VC3500 weighing module consists of a double shear beam stainless steel load cell (also available in ATEX version and in high temperature version) and a built-in assembly component. The VC3500 weighing module is suitable for different industrial environments and is able to perform precise measurements of various types of products such as cement, minerals, chemicals, plastics, pharmaceuticals, paints, food and offshore applications. The load cell of VC3500 has a 20-meter long polyurethane cable.
