Technical specifications

PWS9320261106

The RVL product is an integrated weighing system used to weigh loads directly while being unloaded or transported with the forklift. The mechanical installation of RVL is final and the weight indicator is positioned in the cab available to the operator.

Rated load (RL):	600, 1.500, 2.500, 5.000, 7.000 Kg
Safe overload:	200 % RL
Degree of protection:	IP65
Battery:	from the battery of the cart, through a regulator
Accuracy:	0.2 % RL
Divisions:	2 kg (2.500 kg); 5 kg (5.000 kg); 10 kg (7.000 kg)

All indicated data may be changed without notice.
All the measures indicated are expressed in millimeters (mm).
