Technical specifications

PWS9420261106

The RWV-C weighing fork is a robust, simple and quick to install weighing instrument, ideal in those situations where loads must be weighed directly while they are unloaded or transported with the forklift. In these cases we offer the weighing force RWV-C with integrated load cell; the weight indicator can be placed either in the cab or directly in the weighing force.

Rated load (RL):	2500, 3000, 5000 kg
Safe overload:	200 % RL
Degree of protection:	IP65
Power supply:	from the battery of the cart, through a regulator
Deflection:	0.1 % RL
Divisions:	1/2 kg (2.500 kg, 3.000 kg); 2/5 kg (5.000 kg)

All indicated data may be changed without notice.
All the measures indicated are expressed in millimeters (mm).
